PROGRAMME

DAY 1 – May 20

09.00-09.05	**Welcome**	
09.05-12.10	***Prevention of type 2 diabetes in high-risk individuals***	
09.05-09.10	**Introduction**	**Chair: Antonio Zorzano**
09.10-09.45	**The DEXLIFE study: Overview and main results**	**John Nolan**
09.45-10.00	**Discussion**	
10.00-10.35	**Lifestyle intervention in pre-diabetes**	**Donal O'Gorman**
10.35-10.50	**Discussion**	
10.50-11.20	**Refreshments**	
11.20-11.55	**Use of metabolomics in prevention of type 2 diabetes**	**Matej Oresic**
11.55-12.10	**Discussion**	
12.10-13.10	**Lunch**	
13.10-16.05	***Personalised medicine***	
13.10-13.15	**Introduction**	**Chair: Martin Ridderstråle**
13.15-13.50	**Personalised diabetes treatment based on biology – is it realistic**	**David Leslie**
13.50-14.05	**Discussion**	
14.05-14.40	**Metabolite markers of glucose tolerance and insulin resistance**	**Jeff Cobb**
14.40-14.55	**Discussion**	
14.55-15.15	**Refreshments**	
15.15-15.50	**Use of proteomics in prediction and prevention of diabetic nephropathy: The PRIORITY study**	**Peter Rossing**
15.50-16.05	**Discussion**	
20.00-	**Dinner Bella Sky**	

DAY 2 – May 21

09.00-12.05	***Targeting insulin resistance in diabetes care***	
09.00-09.05	**Introduction**	**Chair: Lars Bo Nielsen**
09.05-09.40	**Thinking again about insulin resistance: physiology or pathophysiology for metabolic disease**	**Michael P. Czech**
09.40-09.55	**Discussion**	
09.55-10.30	**The role of physical activity and sedentary behaviour for preventing diabetes in young people**	**Ulf Ekelund**
10.30-10.45	**Discussion**	
10.45-11.15	**Refreshments**	
11.15-11.50	**Physical activity vs. weight loss in diabetes care**	**Bente Stalknecht**
11.50-12.05	**Discussion**	
12.05-13.05	**Lunch**	
13.05- 14.50	***Heterogeneity of diabetes – and clinical implications***	
13.05-13.10	**Introduction**	**Chair: Valeyria Lyssenko**
13.10-13.45	**Changing the natural history of type 2 diabetes by addressing sub-phenotypes**	**Robert Ratner**
13.45-14.00	**Discussion**	
14.00-14.35	**Variability in response to exercise in type 2 Diabetes**	**Thomas Solomon**
14.35-14.50	**Discussion**	
14.50-15.10	**Refreshments**	
15.10-16.05	***Health-economics in diabetes prevention***	
15.10-15.15	**Introduction**	**Chair: John Nolan**
15.15-15.50	**Association between disease Management Programmes in primary care, hospitalizations and health care cost – the case of diabetes**	**Kim Rose Olsen**

15.50-16.05	**Discussion**		
16.10	**Bus transfer**		
16.30-19.00	**Round-tour at the Steno Diabetes Center**		
19.00	**Bus transfer**		
19.30	**Dinner**		

DAY 3 – May 22

09.00-12.00	***Ethnicity and diabetes***	
09.00-09.10	**Introduction**	**Chair:** **Gregers S. Andersen**
09.10-09.45	**Diet, diabetes and the role of ethnicity**	**Nita Forouhi**
09.45-10.00	**Discussion**	
10.00-10.35	**Diabetes among Greenland Inuit**	**Marit Eika Jørgensen**
10.35-10.50	**Discussion**	
10.50-11.10	**Refreshments**	
11.10-11.45	**Ethnic differences in HbA1c?**	**Elisabeth Selvin**
11.45-12.00	**Discussion**	
12.00-12.55	***Panel discussion: "Use of omics in diabetes care: Is it feasible?"***	
12.00-12.05	**Introduction**	**Chair:** **John Nolan**
	Panel	**Matej Oresic** **Jeff Cobb** **Marit E. Jørgensen** **John Nolan** **Lars Bo Nielsen**
12.55-13.00	**Final remarks**	
13.00-14.00	**Lunch**
